Abstract Information

Reliability and Validity of HbA1C Point-of-Care testing (Clover A1c)

Visual Text

Categories of blood testing	Agreement
Capillary versus Lab	0.964 (0.96, 0.97), p<0.001
Capillary versus Venous	0.962 (0.95, 0.97), p<0.001
Lab versus Venous	0.951 (0.94, 0.96), p<0.001

Conclusion

Clover A1c showed good reliability as it had good agreement between both capillary and laboratory venous blood. We may draw the conclusion that it is a valid and reliable POCT analyser that can be applied in clinical and community settings where logistics may be problematic.
